LSX MKII Low Smoke Convertor

The LSX is an AC powered cooling unit that chills incoming fog from its companion fog machines (recommended machines - Show, Stage and G300) to create a low-lying blanket of fog similar to that of dryIce machines, without the inconvenience of handling dry-ice. The LSX is a clear advancement in low-smoke technology, incorporating proven high performance refrigeration components into a compact, rugged package specifically designed to chill (between 5-25 degrees Farenheight) volumes of incoming fog effectively and efficiently. Controllable cloud density, depth and area coverage make the LSX the professional’s choice.

The LSX comes with our standard One-Year Warranty on most parts and service. The Refrigerant comes with a 3-Month Warranty.

Specifications:

Length:	24 "	60 cm
Width:	24 "	60 cm
Height:	28 "	71 cm
Net Weight:	150 lbs	68 kg
Power Cord:	6 Feet	
Heater Watts:	N/A	
Rating:	12 amps @ 110 volts @ 60 hz	
Regulatory Compliance:	CSA-certified for the US and Canadian markets, to the applicable US and Canadian standards.	

Shipping Specifications:

Length:	36 "	91.44 cm
Width:	26 "	66.04 cm
Height:	29 "	73.66 cm
Weight:	185 lbs	83.92 kgs
This product is shipped as freight.		
UPS USA	UPS Canada	Fedex USA
Administration Fees Apply		
Purolator Canada		

Features:

- Compact Size

- High Durability
- Low Noise
- Automatic Operation
- All Steel Shell
- Power Status LED
- Four Heavy-Duty Casters
- Powder Paint Black Finish
- 1-8" Hose Output
